

SLIDE

This piece grows from a desire to do less—to allow the form to find its own strength.

Made from two sheets of raw steel, bent and brought together with a simple slide and no welds, it relies on balance and proportion. Quiet and steady in form, it holds its weight with ease.

The material is allowed to remain honest, carrying its texture and presence without disguise.

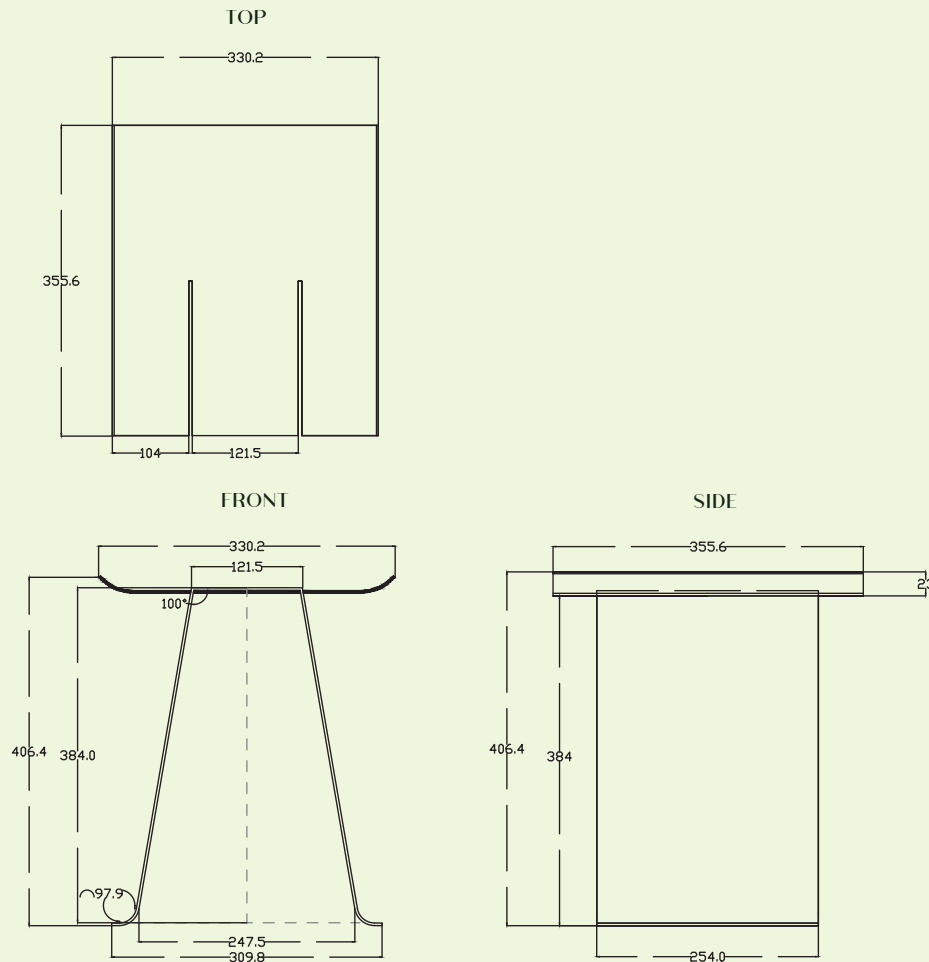

Raw steel, bent to sit in balance.

SLIDE

a stool.

DIMENSIONS - 355.6mm x330.2mm x406.4mm

COMPONENTS - seat ss sheet x 1
leg ss sheet x 1

WEIGHT - 7 kgs

MATERIALS - Stainless steel, Cork sheet

FINISHES - Brushed Stainless steel
