

SCAFFOLD

Born from the quiet poetry of urban scaffolding, this candle stand reinterprets a fleeting construction geometry into a lasting object of light.

Square brass rods rise and intersect like a miniature architectural landscape—an open framework that invites you to choreograph anywhere from one to fifteen candles. Each arrangement becomes its own constellation, shifting the mood and meaning of the piece.

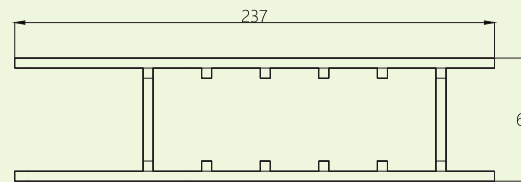

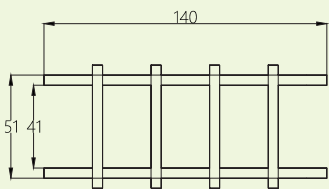

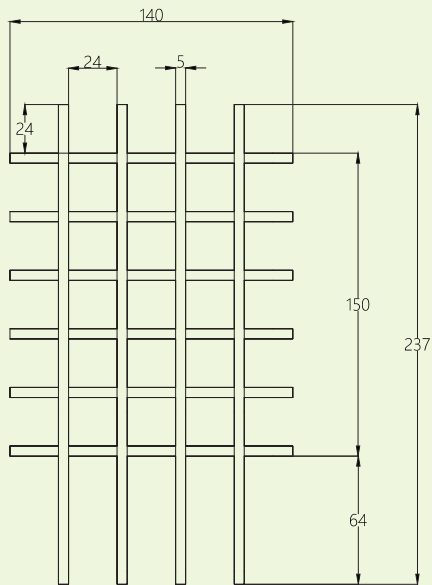

The raw welds and lightly unfinished brass hold onto the honesty of their making, preserving the spirit of a structure still becoming.
